BIOBANK CONTACTS

Administrative manager: anne.metzinger@chu-lyon.fr
Scientific manager: marie.brevet01@chu-lyon.fr

CRB – GROUPEMENT HOSPITALIER EST

CBC Biotec: Cell lines
Prof. Laurent Schaeffer
Manager: isabelle.rouvet@chu-lyon.fr
Tel: +33 (0)4-72-12-97-01

NeuroBioTec: Biological fluids www.neurobiotec.net
Dr. Romain Marignier
Manager: nathalie.dufay@chu-lyon.fr
Tel: +33 (0)4-72-68-49-02

Tissu-Tumorothèque Est: Tumoral and non-tumoral tissues
Prof. Marie Brevet
Manager: corinne.perrin@chu-lyon.fr
Tel: +33 (0)4-72-12-96-03 or +33 (0)4-72-12-95-96

CRB – GROUPEMENT HOSPITALIER NORD

Infectious pathologies
Dr. Vinca Icard
Manager: thanh-thuy.le-thi@chu-lyon.fr
Tel: +33 (0)4-72-07-11-11

CRB – GROUPEMENT HOSPITALIER SUD

Oncological pathologies
Hematopoietic diseases
Autoimmune diseases
Prof. Alexandra Traverse-Glehen
Manager: elisabeth.blasco@chu-lyon.fr
Tel: +33 (0)4-78-86-41-14
**WHAT IS THE CRB HCL?**
Research platform of the Lyon University Hospital (France)
Attached to the Clinical Research and Innovation Department
Located on all sites of the hospital
Managed by a strategic board

**WHAT ARE OUR TASKS?**
1 - Establish collections of human biological samples:
   - Sampling and processing
   - Secured storage of samples
   - Associated clinical data management
2 - Distribution of biological samples for institutional or industrial research, in France or abroad.

Compliance with legal and ethical requirements
Biobank quality standard NF S96-900

**HOW DO WE OPERATE?**
Contact and enquiry
- Enquiry:
  - Establishment of human biological collection
  - Distribution of biological material

Feasibility
- Technical approval
- Collection manager approval

Analysis
- Validation:
  - Scientific
  - Financial

Implementation
- Establishment of a contract
- Storage
- Biological material disposal

**WHAT KIND OF PATHOLOGY?**
- Autoimmune diseases
- Heart diseases
- Digestive diseases
- Foetal pathology
- Infectious diseases
- Hereditary metabolic diseases
- Extracellular matrix diseases
- Neurological disorders
- Neuromuscular diseases
- Childhood illness
- Pulmonary diseases
- Oncological pathologies
- Non-pathological tissues
- Healthy controls
- Urology

**KEY FIGURES**
- > 97 biological collections
- > 400,000 stored samples
- > 188 scientific publications
