

## CONTACTS

[hcl\\_crb@chu-lyon.fr](mailto:hcl_crb@chu-lyon.fr)

**Administrative manager:** [floriane.kunder@chu-lyon.fr](mailto:floriane.kunder@chu-lyon.fr)  
**Scientific manager:** [alexandra.traverse-glehen@chu-lyon.fr](mailto:alexandra.traverse-glehen@chu-lyon.fr)

### CRB EST

#### CBC BioTec: Cell lines

Pr Laurent Schaeffer  
**Manager:** [isabelle.rouvet@chu-lyon.fr](mailto:isabelle.rouvet@chu-lyon.fr)  
Tél. +33 4 72 12 97 01

#### NeuroBioTec: Biological fluids

[www.neurobiotec.net](http://www.neurobiotec.net)  
Pr Romain Marignier  
**Manager:** [nathalie.dufay@chu-lyon.fr](mailto:nathalie.dufay@chu-lyon.fr)  
Tél. +33 4 72 68 49 02

#### Tissu-Tumorothèque Est : Tumoral and non-tumoral tissues

Dr Valérie Hervieu  
**Manager:** [corinne.perrin@chu-lyon.fr](mailto:corinne.perrin@chu-lyon.fr)  
Tél. +33 4 72 12 96 03 or +33 4 72 12 95 96

### CRB NORD

#### Infectious diseases

Dr Vinca Icard  
**Manager:** [benjamin.leveau@chu-lyon.fr](mailto:benjamin.leveau@chu-lyon.fr)  
Tél. +33 4 72 00 37 78

### CRB SUD

#### Oncological, Hematopoïetic and Autoimmune diseases

Pr Alexandra Traverse-Glehen  
**Manager:** [elisabeth.blasco@chu-lyon.fr](mailto:elisabeth.blasco@chu-lyon.fr)  
Tél. +33 4 78 86 29 96

## ABOUT US

The Hospices Civils de Lyon (HCL) biobank is a large-scale research support platform set up to improve clinical research and public health. Attached to the Clinical Research and Innovation Department (DRCI), it is made up of 5 specialized biorepositories, located on each hospital sites.

## OUR MISSIONS

### Set up collections of human biological samples

- Collecting and processing samples
- Secured storage of samples
- Associated clinical data management

**Transfer of biological samples** for institutional or industrial research projects, in France or abroad.

- Compliance with French regulations and ethical requirements
- Biobank quality standard certification NF S96-900

## OUR PROCESS

### Contact and request:

- Set up of human biological samples
- Transfer of high quality human biological materials

### Feasibility:

- Technical approval
- Collection manager approval

### Analysis and validation:

- Scientific
- Financial

### Implementation:

- Contract
- Storage
- Biological material transfer

## PATHOLOGIES

Autoimmune diseases	Heart diseases	Digestive diseases
Fœtal pathology	Infectious diseases/ COVID19	Hereditary metabolic diseases
Extracellular matrix diseases	Neurology disorders	Neuromuscular diseases
Childhood diseases	Pulmonary diseases	Oncological pathologies
Non-pathological tissues	Healthy controls	Urology
